About me

Ready for a new step in my career, I am in search of a job opportunity. My passion for technology and the desire to stay up to -date with innovations have led me to the field of web technologies. At the moment, my focus is on technologies such as HTML, CSS, JavaScript and React.

Experience

(JUN 2023 - present)

Web Developer Freelancer

[restaurant-lapunte.ro](#)

This application is one of the first I have created. Its purpose is to provide a straightforward way for users to view a restaurant's menu. By simply scanning a QR code, customers can easily access and use the menu. It is primarily designed for mobile use.

[balanandrei.ro](#)

This is my first web application, tailored to the client's preferences. It's a **MERN** application that empowers the administrator to manage page content. The design ensures seamless adaptation to any device, providing a smooth and intuitive navigation experience.

[martinescuconstantin.com](#)

The latest project I've completed is my personal presentation website. It allows visitors to download my CV, learn more about my experience, and, if interested, leave a message for potential collaboration. The application is responsive and features a fairly simple interface.

[gadgetgrid.ro](#)

"Gadget Grid" is a web application built with **Next.js, MongoDB, Auth.js**, and **Tailwind CSS**. I've aimed to capture the complexity of an online store, from product listing (in administrator mode) to order confirmation, account creation, password reset, and more.

Hard Skills

HTML/CSS **Node.js** **Next.js** **Git**

JavaScript **React** **Tailwind CSS** **API/web services**
