## **MARTINESCU CONSTANTIN**

WEB DEVELOPER

#### **About Me**

Ready for a new step in my career, I am in search of a job opportunity. My passion for technology and the desire to stay up-todate with innovations have led me to the field of web technologies. At the moment, my focus ison technologies such as HTML, CSS, JavaScript, and React.

# **Experience**

## **Web Developer Freelancer**

(JUN 2023 - present)

#### restaurantlapunte.ro

This application is one of the first I have created. Its purpose is to offer a straightforward way for users to view a restaurant's menu. By simply scanning a QR code, customers can easily access and peruse the menu. It is primarily designed for mobile use.

#### balanandrei.ro

This is my first web application, tailored to the client's preferences. It's a MERN application that empowers the administrator to manage page content. The design ensures seamless adaptation to any device, providing a smooth and intuitive navigation experience.

#### martinescuconstantin.com

The latest project I've completed is my personal presentation website. It allows visitors to download my CV, learn more about my experience, and, if interested, leave a message for potential collaboration. The application is responsive and features a fairly simple interface.
