About me

Ready for a new step in my career, I am in search of a job opportunity. My passion for technology and the desire to stay up-to-date with innovations have led me to thefield of web technologies. At the moment, my focus is on technologies such as HTML, CSS, JavaScript, and React.

Experience

(JUN 2023 - present)

Web Developer Freelancer

restaurantlapunte.ro

This application is one of the first I have created. Its purpose is to provide a straightforward way for users to view a restaurant's menu. By simply scanning a QR code, customers can easily access and use the menu. It is primarily designed for mobile use.

balanandrei.ro

This is my first web application, tailored to the client's preferences. It's a MERN application thatempowers the administrator to manage page content. The design ensures seamless adaptation to any device, providing a smooth and intuitive navigation experience.

martinescuconstantin.com

The latest project I've completed is my personal presentation website. It allows visitors to download my CV, learn more about my experience, and, if interested, leave a message for potential collaboration. The application is responsive and features a fairly simple interface.

Other projects
